LAST WEEK - OCTOBER 20 AND 21, 2015 STAKEHOLDER CONFERENCE CALLS TO DISCUSS EPA'S CONSIDERATION OF RULEMAKING TO ADDRESS EXISTING OIL AND GAS SOURCES ON THE U&O RESERVATION: EPA held conference calls with Federal Land Managers and Uinta Basin County Commissioners, academics and other local officials. On both calls EPA discussed current, proposed, and potential Clean Air Act regulation of existing oil and gas production sources. We provided the same information that was provided to industry and environmental groups during previous Uinta Basin stakeholder meetings. Utah DAQ management participated in the call with the Commissioners. *Information only; no action required by RA/DRA.* **Contacts: Deirdre Rothery, 312-6431; Jody Ostendorf, 312-7814**
